

# FINOPS CERTIFIED PRACTITIONER TRAINING

For individuals who want to develop an understanding of FinOps, its practice areas and how it is applied to enhance business value from cloud spend.

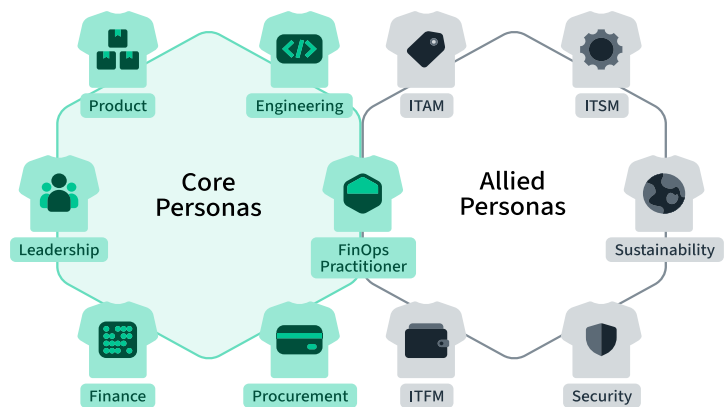

FinOps is an operational framework and cultural practice which maximizes the business value of cloud, enables timely data-driven decision making, and creates financial accountability through collaboration between engineering, finance, and business teams.

## WHO IS IT FOR

The certification is designed for those who plan to hold a position on a FinOps team or support FinOps or cloud financial management, or if you support FinOps teams as consultants, vendors, or trainers.

- Principal Systems Engineers, Cloud Architects, Enterprise Architects
- FinOps practitioners & Managers of Cloud Operation
- Finance and Procurement Leaders & Team Members
- IT Programme and Portfolio Management Leaders
- CIOs, CTOs & Technology Leaders
- ITAM/SAM Practitioners
- Cloud Budget Owners

FinOps Personas

## WHAT YOU GET

- FinOps Foundation Accredited – Certified Practitioner Training
- Access to self-paced materials for 12 months
- FinOps Practitioner Exam Voucher
- T-shirts and extra goodies

# WHAT YOU WILL LEARN

By learning about FinOps, you can gain a comprehensive understanding of its principles, capabilities, and how it can help your organization manage cloud costs and usage. You will become familiar with the various FinOps Personas and how to create a successful FinOps Team that can collaborate effectively with finance, engineering, and business teams to achieve better transparency, accountability, and cost optimization in cloud spending.

## AGENDA
